Infrared Gun

IR-Pebble

IR–Pebble

The pocket sized IR-Pebble Infrared Gun makes taking surface temperatures affordable and portable. Using convenient aim and shoot technology you can check surface temperatures instantly and just about anywhere.

The IR-Pebble includes features such as hold mode for freezing and recoding the temperature, large LCD screen for easy to read measurements and it fits neatly into the palm of your hand. It can be used to measure all types of surface temperatures from cold storage to temperatures in the home and for inspection applications.

Simple to use the IR-Pebble comes complete and ready to use. Press the scan button and the IR-Pebble will display temperatures within a second. Additional features include an auto switch off which saves battery life and the IR-Pebble is supplied complete with a convenient neck lanyard for safe transportation.
